

Deben Windows

ENGINEERED ELEGANCE CREATED BY EXPERIENCED HANDS

DEBEN WINDOWS

HANDCRAFTED JOINERY IN THE HEART OF SUFFOLK

BESPOKE TIMBER WINDOWS & DOORS

Combining originality, master craftsmanship and the ultimate in quality & finish.

We produce beautiful timber windows, doors and conservatories, custom-made to exact specifications by our in-house team of expert joiners using state-of-the-art machinery.

Our extensive sash and casement window technical know-how, learned over many years, enables us to offer a professional and personal service to all of our customers.

We not only make unique one-offs for listed buildings and bespoke designs for private developments or residences, we also have the capacity to fulfil big orders on a large-scale-production basis.

We advise and work with homeowners, building contractors, architects, interior designers and private or commercial clients.

Our expertise is expansive. Everything from the sophistication of restoring historic buildings, to the most contemporary and environmentally friendly solutions on the market.

All of our timber products are produced with specialist detailing and can be supplied primed, polished or fully decorated.

Over 200 collective years of doing what we do best.

“Driven by a love of working with wood and a passion for the art of joinery”

"The attention to detail and the finish was excellent plus everything worked; smooth opening and closing, draught-proof and quiet. A real pleasure to fit and use."

Maria Claydon

ABOUT US

Making A Difference

Tony Carr, Director, leads the businesses, along with our team of talented and experienced craftsmen. For many years we have also built up an external team of reliable specialist suppliers and trusted builders too. We collaborate with those that understand the level of quality of workmanship and materials we require for every project.

Creative Precision

Deben Windows blend the ideas of the designer, the hand skills of the maker and the best choice of materials to produce high quality work. Each project or piece is a personal reflection of our craft.

Custom Statement Makers

- We have been supplying the trade and direct to the public for many years and by doing so have gained huge amounts of experience
- We use high-end materials, exceptional timbers and exquisite fittings
- We are reliable. We often prepare quotations within 24 hours
- Our windows are made using traditional methods combined with modern draught-proof systems
- We use only the best quality and durable paint finishes using micro-porous system for many maintenance free years
- We undertake all our work in-house, ensuring consistency of quality from start to finish

The Future

We believe passionately in the continuation of craft and welcome apprentices to ensure that we are passing on our knowledge to a new generation and supporting the longevity of future expert joiners. In an age of mass production and uniformity, we are proud to still be making as much by hand as possible using a team of experienced craftsmen with skills honed on the bench for more than 40 years and youthful dynamism of apprentices learning traditional techniques.

Our Brand Today

The Deben Joinery group of companies comprises two brands: Deben Joinery and Deben Windows.

Continuing Our Mission

Our mission remains simple: to manufacture, design, deliver and delight.

Bespoke joinery service is at the heart of our business. We are very proud of the reputation and relationships that we have built with our clients, many of whom have become good friends and longstanding customers.

The Brief

From our initial meeting, we take time to learn about the client and their ambitions for each project. Here we leverage our knowledge and experience to explore the creative, financial and practical feasibility.

Surveying

Our team will carry out a survey to ascertain the precise dimensions of the space or work out the exact tolerances for built-in furniture. We can also pre-empt any access, integration, delivery or installation requirements.

Master Craftsmanship

We are industry accredited by the British Woodworking Federation.

OUR SERVICES

Personal, Professional And Uniquely Deben Windows

At Deben Windows we have an accumulation of experience in every aspect of design and manufacture of woodcraft, so we can help advise and inspire on any project however big or small.

Our customers will often use a photograph to show us a style, finish or piece they particularly like and we will endeavour to create something born from this concept or idea, but – of course – individually made and unique to them.

We specialise in:

- Box sash and casement timber windows
- Custom built conservatories and orangeries
- Any array of exterior and interior doors
- Intricate and traditional staircases
- Hand-made kitchens
- Individually designed bathroom furniture
- Tailor-made storage solutions for all areas

Our expertise is profound so to discuss your project ideas, grand designs or to simply ask us a question on how we can help you enhance your development or home please contact us.

EVERY DETAIL CONSIDERED

Traditional. Contemporary. Bespoke. For an Authentic Enhancement of your Home

Trusted timber

All of our sash and casement windows are made using the finest timber. Both quality and characteristics of material are hugely important to us and to the outcome of the finished window. We use a range of world-class timbers and work with trusted partners of certified timber merchants who supply extremely reliable and responsibly sourced timber. Our preferred timbers include Utile, Douglas Fir and Accoya.

We can help you through the entire process, be it restoring, upgrading or fitting brand new windows. Whichever option is right for your project or property, all our windows meet thermal, acoustic and security standards.

Heritage

Over the years, we have developed extensive experience in working with listed buildings and the associated rules, regulations and restrictions. In fact, period-style windows for Listed Buildings are our speciality. Every single window is bespoke and built to the exact required specification for the sympathetic nature of the project.

Finishing touches

We use a preparation and finishing system that protects the integrity of the paint, allows the wood to breathe and guarantees a perfect finish on all of our windows and doors.

Glazing

We supply glazing options to suit all requirements and premises. Our glazing options include traditional to layered and privacy ensuring styles.

Finish

We use the very best equipment to ensure that all our products are finished to the highest standards and that you can have total confidence in their sustainability and durability.

Operation

All work is undertaken in our own factory in the Suffolk countryside by expert craftsmen. We blend the best of both modern and traditional approaches to guarantee the quality of our work and that all our windows operate smoothly and with ease.

Bars

We supply products with a range of frames and bar profiles for you to choose from. This includes a variety of thickness options on our glazing.

Ironmongery

If required we can provide or recommend a variety of options to suit our windows to ensure suitability and style.

SASH WINDOWS

Traditional & Contemporary

For a truly traditional appearance, whether you are looking to restore a period property, replace double glazing or start a new build project, our wooden sash windows not only look elegant and timeless, they also offer energy efficiency, smooth operation and are made to last.

Our sash windows are authentically replicated and full of character. Their performance rivals and surpasses many modern windows. Highly insulating, rattle-free with an easy opening action for peace of mind.

Designed with detailing and carefully selected decorative features such as glazing, bars, mouldings and architectural hardware, our bespoke wooden sash windows will enhance and improve any home aesthetically and practically.

Box Sash

Our box sash windows are fitted with traditional weights and pulleys to counter balance the weight of the glazed panels. The weights themselves are concealed within the box frame.

Sash

We also manufacture an alternative modern sash window with a spring mechanism, which replaces the need for lead weights. This sash window option allows for a much slimmer frame if desired whilst retaining the authentic design.

"There is always a warm welcome and the comfort of knowing that their craftsmanship and quality is consistently outstanding."

— Jon O'Dowd - J.W. O'Dowd

CASEMENT WINDOWS

Beautifully Bespoke

Made-to-order in our Suffolk workshop, our casement windows are constructed entirely from high-grade timber. They are masterfully finished, enduring, secure and thermally efficient.

There are many styles of casement windows to suit different properties; at Deben Windows we provide a full range from small pane Tudor to modern and contemporary flush designs.

As well as this we offer the option of incorporating traditional butt hinges with stays and fasteners to modern friction hinges with multi-point espagnolette lock fasteners.

Bespoke timber casement windows are a very popular choice in the UK and we are experts at recreating and replicating existing designs for homes in conservation areas and listed buildings.

Casement windows are identified by their side hinges and outwards opening.

DOORS

Made-to-suit timber doors

We provide custom-made doors to suit all needs and requirements – fully finished with modern locking systems to ensure peace of mind. We understand the importance of an entrance door and will work with you to achieve the door you will love.

All of our doors are made in all styles and timbers from traditional cottage doors to Georgian, Victorian and modern to French, single, balcony, sliding and Bi-fold.

We provide advice and assistance on the right door for you to ensure that it works with the surroundings as well as meeting your needs and design requirements.

Doors should make your house warm, secure and with a style to suit you.

CONSERVATORIES

A Real Living Space Elegant Structures And Traditional Charm

Our luxury timber conservatories, orangeries and summer rooms are manufactured using high quality engineering processes and only the finest materials that are designed to last. Tailored in size with limitless designs, our bespoke conservatory extensions are true statement pieces.

Made by master joiners in our Suffolk workshop the inspired luxury hardwood living space is designed to feel as though you are in the garden all year round.

“Whether it is a large or small order, nothing is too much trouble.”

Matt Smith - Oakridge Construction

OUR WORKSHOP

The Beating Heart Of Our Business

As well as enabling us to keep our skills in-house, so we can control and enhance quality and react quickly to our clients' requests, we also combine the very best new technology with age-old human hand skills. Our computer-controlled machinery allow for micro-accuracy, speed and ever more intricate detailing.

Finishing Touches

Our craftsmen understand that finish is everything. Whether it's a crisp edge, smooth finish, polished surface, an intriguing tactile texture or a brilliant bright white, the finish is always the first thing you see. We use a preparation and finishing system that protects the integrity of the paint, allowing the wood to breathe and to guarantee a perfect finish on all of our windows and doors.

Our range includes:

RAL – available in white or classic
Dual or mixed colour finishes
Stain finish – available in a range of colours
We can also provide a colour match service.

Spray Booth & Drying Room

Optimising on finish, we have invested in a modern spray booth to provide a fully finished decoration service for our customers. Our bespoke tailored joinery, windows, doors and cabinetry can be supplied ready painted or lacquered with a quality factory finish using advanced micro-porous paint.

Our spray booth is a fully enclosed, temperature-controlled, dust-free environment that means the paint can be applied in a controlled way to ensure a more consistent, superior long lasting finish. It is also a more time efficient process than if applied by hand. After the joinery is sprayed it is transferred to an adjacent drying room to be fully cured.

"Deben Windows has been my 'go to' company for doors, windows and anything else made out of wood. They've developed some great systems to deliver excellent quality on time in a friendly and efficient manner."

— Bamber Johnson - Johnson Friel Ltd

“Deben Joinery have produced the finest sash and casement windows, bespoke staircases, lowre and bi-fold doors and unique one-off pieces of joinery for us on many occasions.”

MATERIALS

Ingrained With Excellence

At Deben Windows, we offer a choice of finest quality timbers. Preferred timbers such as a Utile, Douglas Fir and Accoya are renowned for their durability and sustainability.

Sustainable timber is extremely important for both environmental purposes and the future of our industry. Wood is a natural resource, which we respect and acknowledge and we never use environmentally damaging cheap softwood timbers that have to be vac treated.

Both quality and characteristics of material are hugely important throughout the joinery process. We work with our preferred partners of certified timber merchants who supply extremely reliable and responsibly sourced timber.

Utile

Utile wood is well known for its hardness and durability, making it a beautiful and sustainable timber that is very popular. Originating from Africa this timber is most commonly used for door and windowsills due to its excellent effect.

Douglas Fir

The natural resins within the wood and the close annual rings make this timber very stable and weather resistant. From Canada and originally sourced in Victorian times this a favourite of ours tried and tested for windows and doors.

Accoya

Accoya timber is very durable and weather resistant. The unique qualities and appeal are down to a clever modification through a chemical process that alters the cell structure preventing it from holding moisture. We are an Accoya® Approved Manufacturer.
